

Chapter 20
Heating, Ventilating and Air Conditioning
(Rep. & recr. #30-88)

20.04 Permits

(1) APPLICATION.

(a) (Am. #54-93) Before any work is started, a heating permit shall be obtained by a licensed person except as provided for in 20.03(2)(a). Permits in transit are not considered issued until delivered and received in the Building Inspection Department.

(b) Applications for permits shall include the type of installation, heat loss calculations, materials and equipment which are to be used.

(c) Buildings housing more than 2 families or commercial, industrial and public buildings as stated in the Wisconsin Administrative Code shall have State approved heating and ventilating plans submitted along with the application. A copy of the approved plans shall be on the job site at all times.

(d) PERMIT FEES. (Am. #56-96)(Rep. & Recr. #42-03) Permits granted pursuant to this Chapter expire after 120 days. If not used, that portion over \$20.00 will be refunded by request of the permit applicant before expiration. All rough and final inspections must be called for by the Heating contractor. Double fees shall be charged if work commences prior to issuance of a permit.

(2) FEES. (Cr. #56-96)(Am. #42-03) The fees shall be as established and amended from time to time by the Common Council and are hereby incorporated by reference. A printed list of current fees established pursuant to this section shall be kept on file at the Office of Community Development and made available to the public upon request.
